

PATENT

In re: Fleming et al.

Page 11

A<sup>+</sup>  
Concl'd.

16  
82. (New) The structure of Claim 81 wherein the thickness of each interconnection layer is twice the thickness of each hexagonal-pattern layer.

17  
15  
13  
83. (New) The structure of Claim 76 wherein the dots are arranged in a triangular array.

Remarks

Formal drawings for Figs. 1 - 9 are being submitted herewith. These formal drawings do not add any new matter.

None of the newly-submitted claims 52 - 83 add any new matter. Support for new claims 52 - 60 can be found on the last paragraph on page 17 through the first paragraph on page 18, and in Fig. 5. Support for new claims 61 - 83 can be found on the second and third paragraphs on page 18 and in Fig. 6. The honeycomb layers recited in new independent claims 61 and 70 are shown in Fig. 6 as Structure Layer 1 and Structure Layer 3.

Attached hereto is a clean copy of the amended claims and new claims.

Entry of the amendments presented herein and favorable consideration of the accompanying divisional patent application are earnestly solicited.

Respectfully submitted,

Dated: August 27, 2001
